The Project – strategy for a good grade

1. Identify Project
2. Research Literature
3. Design and validate experiment
4. Proof of concept demonstration
5. Document Image Data
6. Algorithm Development and refinement

Project Report

- Read several papers
- Select Project
- Development Images Synthetic + Real
- Proof of concept demonstration
- Algorithm (Implementation and refinement)

The Project Final Report/Poster

1. Introduction
   1. Research Literature
   2. Explain concepts and issues
2. Methods
   1. Experiment
   2. Data Set
   3. Algorithm
3. Results
   1. Tables and graphs
4. Discussion
   1. What works (examples)
   2. Where does it fail (examples)
   3. Future Suggestions
